PROVEN PROGENY

CALVING EASE • GROWTH • MARBLING

THE ROSEDA DEADWOOD GANG IS HEADED TO OKLAHOMA CITY, OK!

Shortly after these flush mates were born, we started referring to them as the Deadwood Gang. They are sired by Poss Deadwood and out of our Roseda Ms Flora Design F113 donor. We were attracted to Poss Deadwood because of his high marbling EPD and top 1% genomic tenderness which when combined with his calving ease and growth, fits our branded beef program to a T. Their Dam, F113, has similar EPDs and tenderness and is the dam of Roseda Powerplant, that sold in OKC to Alta Genetics for $70,000. The mating did not disappoint. Deadwood Bob, the gang leader, has a Marb EPD of 1.98 and a genomic tenderness of 1 while pushing the YW EPD up to 161 and maintaining a CED of 11. He will replace Deadwood in our breeding program and is **selling in Oklahoma City on Jan 6 in the National Angus Bull Sale**. Butch and Billy will join Bob in the Pen Show competition. Please stop by our pen for a visit.

DEADWOOD BOB
SELLS JAN 6TH IN OKC

MEANWHILE, ROSEDA MATT DILLON IS HEADED TO SCOTTSDALE, AZ

Matt Dillon got his name while hanging around the Deadwood gang. He has the highest growth (YW 186) and carcass merit (Marb 1.88, RE 1.12) combination in the breed, rivaled only by his dam H320. H320, is a flush mate to Powerplant, and is the highest growth (YW 197)/marbling (Marb 1.85) individual in the breed. If you need cattle with top performance that will grade and yield well on the rail, Matt Dillon is your bull. **He is selling Dec 31, in The Source Sessions Invitational Sale, in Scottsdale, AZ.**
